CHICAGO

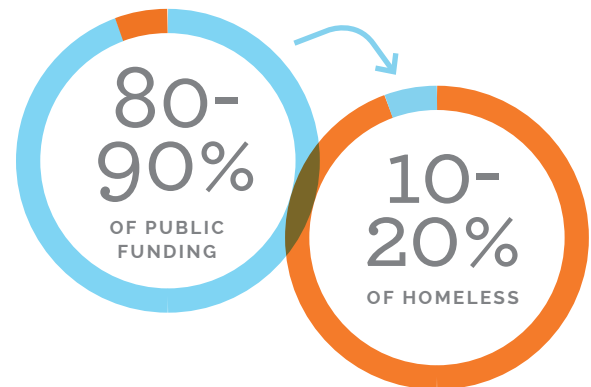

1 in 5 adults in Chicago between the ages of 18-64 **is uninsured.**

The life expectancy of Chicagoans in areas of **high economic hardship is 5 years lower** than those living in better economic conditions.

The chronically homeless are only **10-20%** of the total homeless population but account for **80-90%** of the public spending for the homeless nationally.

3.6 million Americans **miss or delay medical treatment** each year due to a lack of transportation.

Each year, missed appointments **cost our country \$150 billion.**
